

MARKAUDIO SOTA

HEAR OUR DIFFERENCE

TOZZI TWO

Tozzi Two is an ultra-high-end, single-driver desktop loudspeaker. It incorporates the most advanced all-range driver technology on the market with a sub-compact enclosure developed using the latest in industrial design and computer numerical control (CNC) machining. Tozzi Two, in finished quality and performance, is a purist high-end compact loudspeaker for the discerning customer. Designed by Mark Fenlon, this state-of-the-art driver is a single-suspension variation of the Alpair 5. The sound has superb clarity and detail, with clean, precise, phase-accurate balance and a long stroke to help avoid excess compression. Range is exceptional for a sub-compact loudspeaker, stretching from upper bass notes to well beyond the upper limit of human hearing. The advanced alloy cone has a very shallow profile, and with the signature Tozzi waveguide, gives excellent dispersion of sound energy into the room. No filter is used; the output of the amplifier goes direct to the driver.

TOZZI TWO KEY FEATURES

BUILT FROM THE GROUND UP

MarkAudio-SOTA loudspeakers are built from the ground up, including the cabinets, crossovers and speaker drivers. Many manufacturers choose off-the-shelf components that aren't always a perfect match to their system design target.

ALL-RANGE DRIVER APPROACH

MarkAudio-SOTA's unique all-range approach offers the rich midrange that is typical of a wide-range single speaker design, while providing a full frequency range extending from 80Hz to 24kHz, and the high-impact dynamics of more typical multi-way speakers.

SYMMETRICAL SOUND FIELD

MarkAudio-SOTA uses its own symmetrical technology. The single, wide dispersion, shallow-profile cone driver replaces conventional dual cone-woofer and dome-tweeter combinations.

MONEY BACK GUARANTEE

We are so confident that you'll have no problem getting great sound from your MarkAudio-SOTA loudspeakers that we offer you 30 days to order the speakers, get them home, set them up and listen to them before final decision.

GLOBAL DESIGN: THE BEST ENGINEERS AND DESIGNERS FROM AROUND THE WORLD

The global dream team at MarkAudio-SOTA recruited a global dream panel of experts to help tune the sound character, thus creating outstanding loudspeakers for discerning listeners.

KEY FEATURES:

- State-of-the-art 50mm SOTA 5A variant single-suspension all-range driver
- High-rigidity enclosure milled from solid aerospace-grade aluminium and composite sub-assemblies
- Two high-grade finishes
- Machined waveguide front baffle
- Base includes mounting for 1/4" thread tripods or similar stands

COLORS

BRUSH STIPPLE ROSE ALLOY

Rose alloy front and back panels with
creme leatherette center

MEET THE DREAM TEAM

STEVE CHENG

MARK FENLON

DR. SCOTT LINDGREN

MATSUBARA SAN

STEVE CHENG

Founder Steve Cheng formed SOTA Acoustics Limited in 2014. Having maintained a keen audio interest over many years, the time came to turn dreams into a reality. Steve is the Executive Director and Chairman of Telefield, a substantial manufacturing company group based in Hong Kong, experience that will assist SOTA in its growth and development. Steve has 30 plus years of postgraduate level experience in consumer electronic products industry from telephones, personal security devices, alarms and A/V amplification and large scale manufacturing, giving him a near unique set of skills and a wide industrial perspective to lead SOTA. A devotee of electronics and new technology, Steve has recently become the proud owner of a Tesla all-electric car.

DR. SCOTT LINDGREN

Dr. Scott Lindgren is well-known as a loudspeaker designer and has produced a large number of highly-regarded systems for the commercial and custom-build markets, working both individually and as part of international development teams. Dr. Scott specializes in enclosure and filter design. Scott's contribution to MarkAudio-SOTA includes large-scale projects working in collaboration with Mark Fenlon and Matsubara San to create our different series of loudspeakers. Outside his work in acoustics he is also a highly respected naval historian.

MARK FENLON

Consultant Mark Fenlon leads on product development and technical application. Mark also contributes to SOTA's marketing development. Mark's engineering background initially comes from the energy sector specializing in material flow dynamics, production and control. He was the originator of the Alpair and CHR series of Full-Range audio drivers under the original MarkAudio brand. With 30 plus years of post graduate mechanical-industrial and product design experience, his passion for home audio started at 18 years of age when he built his own set of loudspeakers. Mark is an enthusiast for Japanese vintage audio equipment that includes rare Victor and Sansui. He also owns and restores classic Subaru Impreza and Mitsubishi Evolution 4 wheel driver sport cars. Mark works in collaboration with Matsubara San and Dr Scott Lindgren.

MATSUBARA SAN

An engineering science graduate, Matsubara has over 35 years of transducer and loudspeaker leading design experience based in Japan and China with major international Hi-Fi brands. His research includes the operational efficiency of audio drivers. Matsubara's contribution to MarkAudio-SOTA includes large scale loudspeaker projects working in collaboration with Mark Fenlon and Dr. Scott Lindgren.

TOZZI TWO TECHNICAL SPECIFICATIONS

DESIGN	Ultra-high-end, single-driver desktop loudspeaker
FINISHES	Brush Stipple Rose Alloy / Brush Stipple Grey Alloy
DRIVER UNITS	1 x Alpair 5 all-range driver
FREQUENCY RANGE ±6DB	80Hz – 24kHz anechoic
SENSITIVITY (1W @ 1M)	85dB 1w @ 1m
IMPEDANCE (NOMINAL)	6 ohms
DIMENSIONS (EACH) (MM)	200mm x 126mm x 200mm
DIMENSIONS (EACH) (INCHES)	7.87 x 4.96 x 7.87
WEIGHT (EACH) (KG)	1.96
WEIGHT (EACH) (LBS)	4 lbs 4 oz
AMPLIFIER REQUIREMENTS	
CLASS A / B @ 8 OHM PER CHANNEL	25W to 50W
CLASS A @ 8 OHM PER CHANNEL	5W to 12W
CLASS D @ 8 OHM PER CHANNEL	20W to 40W
SPEAKER PACKAGING DIMENSIONS (MM)	400mm x 300mm x 280mm
SPEAKER PACKAGING DIMENSIONS (INCHES)	15.75 x 11.8 x 11
NET WEIGHT (KG)	4
NET WEIGHT (LBS / OZ)	8 lbs 13 oz
GROSS WEIGHT (KG)	7
GROSS WEIGHT (LBS)	15 lbs 7 oz
CBM	0.03
QTY PER BOX	2 pc
